# LETTER FROM THE DIRECTORS

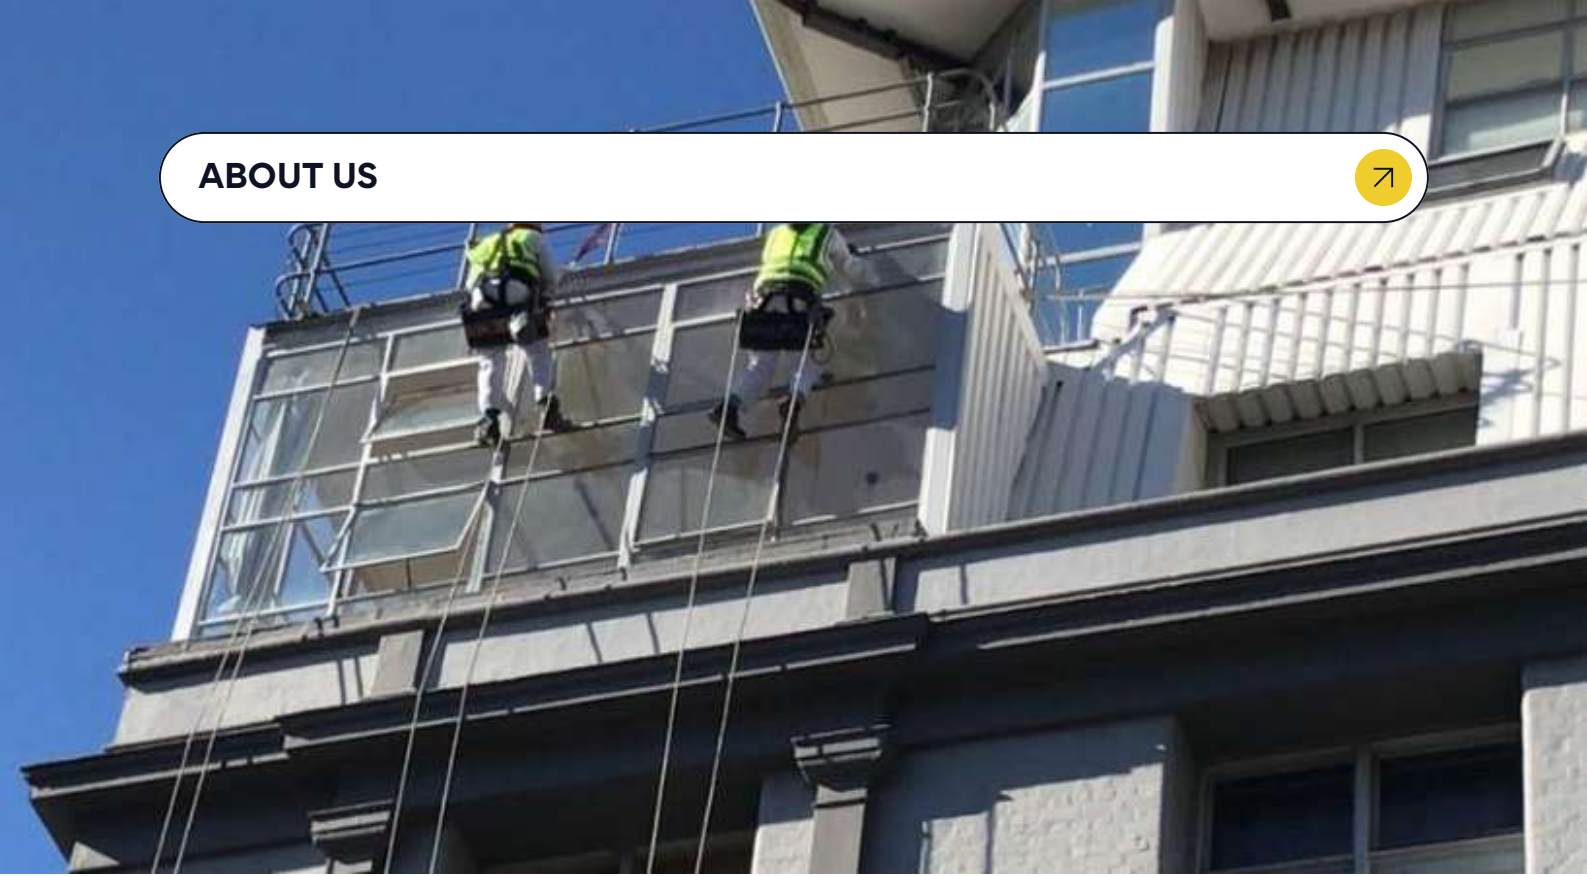

**Thank you for allowing HPC Projects to introduce ourselves.**

We at HPC projects are all about quality workmanship, thrifty pricing, and getting the job done in the most efficient manner possible. We have been in the business of property maintenance for over seven years. Specialising in painting, concrete repairs, installations, and waterproofing.

As our portfolio in the industry has grown, we have adapted to using various methods and techniques to achieve our goals and objectives, working hand in hand with our various suppliers. The ongoing training with our suppliers and technologies has given us the confidence to develop and roll out all-size projects from the really to the not-as-big.

We ensure that we promote from within our company, ensuring that our members are always given the opportunity to grow within our team. We also believe that promoting our team from within, gives our members more skills and knowledge to become better technicians, equipping our employees to be all they can be. (The BEST)

Best Regards,  
Dean & Jacqueline MacDonald

# WE ARE PROPERTY MAINTENANCE PROFESSIONALS

Firstly, a thank you for checking us out and knowing you're in good hands.

With a humble and small beginning, we at HPC began our journey in the property maintenance business, with the goal of quality workmanship and thrifty pricing to provide our clients with FACILITIES- RESIDENTIAL and COMMERCIAL that they would be proud of...

As the saying goes... you treat it well and look after it... it'll last forever! That's where our passion comes from - restoring buildings and property and managing it all. We constantly strive to impress and use only the best in the industry, with constant training and experience.

We will get the job done and we guarantee it too... that is our commitment and promise to you.
